

October as it changes in to fall

Yes, we did have true fun.

Lake Alpine. Cataract Falls. The trail with seven waterfalls, the trail uncovered. This is what it will be like below when the water is falling.

Leaves trickling down in a circle on top of a circle on top of a circle. Simple. Spiral.

The only reason rain will be ok this year.

Choosing not to be so fixated.
Letting go.
Having new dreams.
Wanting then needing 8 hours of sleep.

Letting it go.
Having it come back.

She stops me mid-sentence to ask, *when you say we, are you talking about me and you we, or we as people in general?*

Are you over her?
Umm, No.

NY cheery blossoms.
In my film they will be beautiful, but they will be out of focus. Of course.

Paper flying. Mt wonder.
